Reply to Attn of:

**FT**

**Dear Readers,**

**In order to satisfy the needs of our current readers and properly expand the distribution of *Issues in NASA Program and Project Management*, we would like to hear from you. This publication is printed twice a year and collects current topics and lessons learned in NASA program and project management.**

**If you no longer want to receive *Issues*, please let us know. If you know of anyone who would like to start receiving *Issues*, please fill in the appropriate area on the back of this page. Also indicate if you are interested in writing an article for a future volume of *Issues*.**

**Please complete the form on the back and fax to Debbie Johnson at (202) 863-1664 as soon as possible.**

**Thank you for helping us update our mailing list. If you have any questions, please call Debbie on (202) 554-1403.**

**Sincerely,**

A handwritten signature in black ink that reads "Edward J. Hoffman". The signature is written in a cursive style with a long horizontal line extending to the right.

**Edward J. Hoffman  
PPMI Project Manager**

Please continue to send updated volumes of *Issues in NASA Program and Project Management* to my current address.

Name and Address:

National Aeronautics and Space Administration

Winter 1994

---

PAGE	TITLE	AUTHOR
1	<b>Power Sources for the Galileo and Ulysses Missions</b> DOE's Director of Safety and Nuclear Operations and past manager of Advanced Propulsion Systems in the Transportation Division of OACT shows how a check-and-balance approach met mission requirements for the radioisotope power sources on the Galileo voyage to Jupiter and the Ulysses exploration of the Sun's polar regions.	<b>Gary L. Bennett</b>
11	<b>Managing Requirements</b> After two decades of managing requirements on the Shuttle program, the author, now with Compliance Automation Inc., offers valuable advice on spotting the major problems in requirements management and improving the process through awareness of necessary, verifiable and attainable requirements.	<b>Ivy F. Hooks</b>
19	<b>Program Control on the Tropical Rainfall Measuring Mission</b> The Tropical Rainfall Measuring Mission (TRMM), an integral part of NASA's Mission to Planet Earth, is noted for its comprehensive Project Control System which covers schedules, budgets, change control and risk assessment.	<b>Dorothy J. Pennington &amp; Walt Majerowicz</b>
36	<b>The Project Management Method</b> The head of Business Management Consultants (BMC), which specializes in project management development and training, emphasizes the concepts of customer, ownership, system and teamwork.	<b>Thomas G. Johns</b>
41	<b>Career Development for Project Management</b> The Program/Project Management Initiative (PPMI) team examines career paths for existing project management personnel and makes career recommendations. Job requirements are identified, as well as training and developmental experiences.	<b>Edward J. Hoffman, Dale Crossman, Deborah Duarte &amp; Andrea Lewis</b>
49	<b>Resources for NASA Managers</b> A PPMI Listserv has been created to provide an interface with the NASA project management community, with instructions on how to subscribe to various lists and discussion groups. Plus, book reviews of three new project management handbooks and other selected titles of interest for program and project managers.	<b>William M. Lawbaugh</b>

SP-6101(08) *Issues in NASA Program and Project Management* is eighth in a series from NASA's Program and Project Management Initiative. This series is collected and edited by Dr. Edward J. Hoffman and Dr. William M. Lawbaugh with Francis T. Hoban, editor emeritus. Statements and opinions are those of the authors and do not represent official policy of NASA or the U.S. Government. Useful and enlightening material is welcome, and diversity of ideas is encouraged.

*Inquiries should be directed to Dr. Edward Hoffman, Program Manager, Office of Training and Development, Code FT, NASA Headquarters, Washington, D.C. 20546-0001.*
